39" std
10' max

- Swivel at canopy, suitable for sloped ceilings
- Includes telescoping section plus 4 connectable stem sections, (1x 3", 1x 6", 1x 12", 1x 18"), 10' max
- Bronze or Satin Nickel

STEM SECTIONS

Interlocking stem sections may be ordered for Besa pendant luminaires. These 7/16" diameter stem sections can easily be added to increase the overall drop length. Available in 4 different fixed lengths, plus a telescoping section that allows up to 3" of length adjustment.

Note: When adding to pendants length, overall length is not to exceed 10' (the provided wiring length). They may not be field cut.

Multi light (pg. 11)
J For Multi light Canopy

Multilight Canopies Available, see page 11.

The Pape is a broad handcrafted glass, with distinctive ridges, softly radiused to fit gracefully into contemporary spaces. Our Glitter option is a clear blown and a technologically advanced crystal coating applied to the inside. The coating contains multiple micro-layers of glass particles that create unique prismatic optical properties, which effectively alter both the reflected and transmitted light. So unlit, it appears like a frosted glass; when lit, it becomes alive with dazzling light effects.

LOW-PROFILE RAIL

• Less than half inch tall, one of the smallest rails on the market

• Hand-bendable, no tools required

• Brass rail keep its shape

• Field-cuttable

ACTUAL SIZE

EASY TO PLAN & ORDER

• Available as components or kits

• Simple 4 step planning guide
  builds your system ordering list(pg. 128-129)

• Designed to utilize our full line of 12v pendants and spotlights

MAXIMUM SYSTEM FLEXIBILITY

• Designed to achieve almost any system need

• Standoffs and transformers include optional hardware to accommodate
  multiple applications

• Simple line of components covers even complex plans such as sloped or
  high ceilings

• Low profile system options

• Support hardware designed to work with all power supply options. No
  confusion about which parts go with which transformers

MONORAIL COMPONENTS

RAIL SECTIONS

Low profile brass rail is hand-bendable and field-cuttable for a variety of configurations.
