

cerno®

DESIGNED AND MADE IN CALIFORNIA

BELIEF

With no backyards but access to beaches and idyllic doses of salt and sun, our business story began with the adventures of three boys. Laguna Beach's creative culture and natural environment shaped our professional and aesthetic ideals. Looking back it's now clear that our childhood projects and experiments grew into our best adventure yet: building Cerno.

THE BEGINNING

Cerno founders, 1998. Left to right: Nick Sheridan, Dan Wacholder, Bret Englander.

Our drive and influences come from many different sources. One source that influenced all of us is Daniel's late grandfather, Steve. Steve grew up on a remote homestead where the existence of most objects depended on people's ability to create and fix them. For all of his 101 years, he embodied the saying "where there's a will, there's a way." On the California coast we were raised with this mentality and today we share it with the rest of the Cerno team.

CERNO

- Verb (Latin)

1. To resolve, distinguish, decide, sift, determine, to perceive.

OUR TEAM

Each finished product is a celebration of the inventive minds and industrious hands that brought it to life. Dreams do not manifest themselves; skilled people bring dreams to life. The passion of our steadily growing team and their commitment to the product is inspiring. We are grateful for every individual that is part of our collaborative creative process.

Forma floor, walnut, white linen

Floor Lamps

Fons Family

Valeo

Nauta

Altus

Forma

Silva Giant

Fons 8 / 10
floor lamp

- Dimensions: 25" Ø shade, 7'-4"
- Materials: solid wood, metal, linen shade
- Product weight: 65 lb
- Light source: medium base E26 socket
- Lamping: E26 base, type A lamp, 60 W max
- Input voltage: 120 V AC max
- Includes 72" clear silver cord with inline foot switch 24" from base
- Bottom diffuser included (CM-051)
- Wood grain will vary
- Specifications subject to change
- Included dimmable LED A19 bulb
- Light output: 800 Lumens (source)
- Light color: 2700 K
- Color accuracy: 90+ CRI
- Power usage: 11 W

MATERIAL & FINISH OPTIONS

Fons part # 05-600-

| | |
|---------------------------------------|---|
| Boom Arm brushed aluminum (CM-006) | A |
| Wood Body walnut (CM-001) | W |
| Fabric Shade white linen (CM-016) | L |
| Arm Length 8' | E |
| 10' | T |

- Includes:*
- stainless steel tension cable (CM-053)
 - black powder coated steel base (CM-049)
 - frosted polymer diffuser (CM-051)

Alternate voltage/plug styles are available

ARM LENGTH

Available in 10'-8" and 8'-4" arm lengths
Arm length is from back of base to center of shade
Arm lengths are not adjustable

SHADE HEIGHT

Shade height (floor to bottom edge of shade) can be adjusted between 6'-2" maximum and 3'-9" minimum

walnut (CM-001)

white linen (CM-016)

The goal with the Fons was to minimize the structure and visual massing of the fixture while maximizing the reach or cantilever. The delicate boom arm, upheld by a tension cable, gently bends while reaching out to almost horizontal where it suspends the light. The structural design is an extremely effective way to resolve the forces associated with such a long reach. It is so effective and efficient that it seems to float with a weightlessness at the tip.

Nick Sheridan,
Designer

Valeo
floor lamp

Dimensions: 8'1" H max, 25" Ø shade
 Materials: solid wood, metal, linen shade
 Product weight: 95 lb
 Light source: medium base E26 socket
 Lamping: E26 base, type A lamp, 60 W max
 Input voltage: 120 V AC max
 Includes 72" clear silver cord with inline foot switch 24" from base
 Bottom diffuser included (CM-051)
 Wood grain will vary
 Specifications subject to change
 Included dimmable LED A19 bulb
 Light output: 800 Lumens (source)
 Light color: 2700 K
 Color accuracy: 90+ CRI
 Power usage: 11 W

MATERIAL & FINISH OPTIONS

| Fabric Shade | | | |
| white linen (CM-016) | L | | |

Includes:
 textured black Powder Coated base (CM-049)
 frosted polymer diffuser (CM-051)

Alternate voltage/plug styles are available

SHADE HEIGHT: Shade height (floor to bottom edge of shade) can be adjusted between 6'-7" maximum and 3'-11" minimum

ARM LENGTH: Arm length (from back of base to center of shade) can be adjusted between 9'-6" maximum and 6'-6" minimum

walnut (CM-001)

white washed oak (CM-095)

dark stained walnut (CM-002)

white linen (CM-016)

When reaching such a distance with a fixture, it is important that it feels visually efficient in its form but is still far from fragile, inviting one to linger under it. The adjustability in the reach and the height of the shade make it possible to custom fit the piece to its surroundings - an important characteristic for such a large piece.

Nick Sheridan,
Designer

Efficiency and simplicity guided the design process for the Nauta table lamp. We designed the Forma several years ago with Frank Carfaro of Desiron, which profoundly influenced the Nauta's form. Our goal was to distill the Forma design without compromising it. The Nauta is clean, modern, and priced competitively.

Nick Sheridan,
 Designer

walnut, distressed brass, white linen

brushed brass top detail

distressed brass footer

The Altus is a robust fixture that also carries an air of elegance and subtle proportion. It has the mass and impact to anchor a space while still showing balance and grace. It is always exciting to see how the solid wood trunk comes out; admiring the wood grain all the way through.

Nick Sheridan,
 Co-Designer

Frank Carfaro and I worked to design a piece that embraced both Cerno and Desiron's aesthetic, without deviating too much from either brand's design language. I am really pleased with the fluidity, posture and scale we achieved with the Forma.

*Nick Sheridan,
 Co-Designer*

The Silva Giant, as the name suggests, is a giant version of our Silva table fixture. Its scale gives it a strong presence even in very large spaces, while its distilled form gives it a simplicity that can be seen from across the room. A fun piece with a huge personality.

Bret, Dan and I have always loved the ocean and boats. In fact, the first project we built together as young boys was a sailboat. Our appreciation for the beauty of a well-designed craft is what initially inspired the Lenis fixture; the form is created by bending wood stringers over a series of bulkheads. The organic and sculptural structure deviates from our mostly rectilinear forms, which introduced many new challenges, yet it also breathed new life into the design process for us. Ultimately, we were searching for that balance between the curved fluidity of its lines and the twisting movement. Thanks to our team's determination, after countless studies and prototypes, we found the balance we were looking for.

The true beauty of the Camur is difficult to appreciate in print. When experiencing this fixture in person you begin to see the subtlety and grace of its vertical and horizontal movements. As you walk around this fixture the shape will morph from a beautiful curve to a straight line. We have created a video to help celebrate these details at www.cernogroup.com/camur.

walnut

The Aeris was a collaboration with New York based designer Frank Carfaro of Desiron. The organic and often wild swirls of walnut grain are interrupted by rigorous slits and inlays that punctuate each face to create a beautiful juxtaposition, making each fixture unique. The glow of the illuminated wood seen through the cut slits creates a rich composition of light and shadow.

Penna 40 / 64
linear pendant

distressed brass, dark stained walnut

brushed brass, white washed oak

distressed brass, walnut, under detail

walnut, top detail

On our Cerno journey, we continue to evolve as designers and craftsman. The Penna is a celebration of us drawing and reflecting on our last ten years. This design is an embodiment of all the lessons that we have learned from designing and building thousands of lights. This fixture balances utility and sophisticated beauty well. The walnut, brass, and leather work in concert to compose a modern form with materials that have been used for thousands of years.

Nick Sheridan,
Designer

Penna 40 dimensions: 40.5" x 7.7" , 2.3"

Penna 64 dimensions: 64.5" x 7.7" , 2.3"

walnut (CM-001)

dark stained walnut (CM-002)

Includes: frosted polymer (CM-024)

*Available in 3000K, 4000K and other color temperatures upon request

I wanted to create a simple geometric sculpture that lets the light inside just sneak out around the floating walnut planes: letting the natural wood fall in and out of the light. It is this play with contrast and light and shadow that makes the Abeo such a dynamic piece.

Nick Sheridan,
Designer

Spero pendant, black / black leather

Spero
pendant

Dimensions: 3" Ø, 11"
 Product weight: 2 lb
 Field adjustable drop length:
 0'6" min - 8'0" max
 Canopy color matches cord
 Lamping: 1x E26 base, PAR20 lamp, 20 W max
 Specifications subject to change

MATERIAL & FINISH OPTIONS

Spero pendant part # 06-310-

Standard Combinations

- black / black leather
- brass / brown leather
- distressed brass / black leather
- white / tan leather

Lamping

- PAR20 LED bulb included - 2700 K, 90CRI, 40 degree flood
- no bulb included

details

The Spero Pendant illustrates a minimalist mindset without sacrificing design details that define the fixture. Pronounced metal accents join the leather strap to the shade, adding a balanced contrast between the different elements. The bottom aperture allows the delivery of ample light while shielding the rest of the space from glare.

Cano
pendant

Dimensions: 3.5" x 3.5", 6.75"
 Materials: solid wood
 Product weight: 2 lb
 Light source: medium base E26 socket
 Lamping: E26 base, type G25 lamp, 20 W max
 Input voltage: 250 V AC max
 Textured Black Powdercoat (CM-049) low
 profile round canopy with Grey Cloth
 Covered Cord (CM-106)
 Canopy dimensions: 5" Ø, 0.3"
 See website for more canopy information
 Field adjustable drop length: 0'6" min - 6'0" max
 Suitable for a sloped ceiling
 Wood grain will vary
 Specifications subject to change
 Optional dimmable LED G25 bulb
 Light output: 500 Lumens (source)
 Color accuracy: 90+ CRI
 Power usage: 5.5 W

walnut (CM-001)

dark stained walnut (CM-002)

white washed oak (CM-095)

Designing with LEDs often lends itself to hiding, or using a low profile light source. The Cano pendant does the opposite; the light bulb is an integral part of the design. The solid hardwood faceted body is enhanced when paired with a spherical glowing bulb.

walnut

white washed oak

dark stained walnut

Built of one inch thick solid hardwood, the Bimar showcases the beauty of natural woodgrain. Eight faceted sides compose a design that works well in a modern or transitional space. The combination of natural wood and a glowing sphere bulb warms up any environment.

Bimar
pendant

Dimensions: 5" x 5", 7.75"

walnut

walnut, under view

dark stained walnut

The way the walnut planes in the Muto both block and bounce light makes for a very dynamic composition of light and shadow, from any vantage point. While the pinwheel form with its repeating elements is symmetric, it appears very sculptural from any one view. The modern floating ideal is realized in the Muto. By holding each walnut element away from its neighbor, so each plane floats, the whole fixture feels weightless as if it were floating itself.

Nick Sheridan,
Designer

distressed brass

gloss white

matte black

Inspiration for the Astrum dates back to the first light fixture the three of us ever made after starting Cerno. The varying depths of the flat panels strategically obstruct a direct view of the light source. Light reflects off the inside of the outer panels and bounces off the inner panels producing a halo washing effect. The oculus at the bottom functions to emit a useful amount of downlighting. This design manages to pay homage to past modern designs while also feeling a bit futuristic.

The Ignis and Imber were inspired by the same design principles that make Cerno and ICRAVE well suited to collaborate. Honesty, simplicity, elemental, timeless and quality are words that sit at the core of both companies' design ethos and we believe these light fixtures embrace these qualities well. Each fixture was reduced to its essential parts – frame and shade – highlighting the interplay of the components, and accentuating the clean lines of the form.

After working with drum cymbals on a few custom projects, we grew to appreciate the design and engineering that goes into these beautiful objects. Cymbals have a simple form, rich texture, and a beautiful brass finish. Modernism is often about utilizing what already exists and repurposing things, which is what we did with this fixture. The Ico looks excellent when paired with a simple light bulb.

 See website for more canopy information
 8'-0" drop length, field adjustable
 Suitable for a sloped ceiling
 Wood grain will vary
 Specifications subject to change

round 8" white multipoint canopy with clear SPT cord and steel cable

MATERIAL & FINISH OPTIONS

Calx 36 part # 06-200-36

Metal Finish

- brushed aluminum (CM-012) **A**
- brushed rose gold (CM-046) **G**
- brushed brass (CM-047) **R**

Wood Finish

- walnut (CM-055) **W**
- dark stained walnut (CM-056) **D**
- white washed oak (CM-095) **O**

Includes: frosted polymer diffuser (CM-057)

Other sizes and Calx sconce also available

brushed aluminum (CM-012)

brushed rose gold (CM-046)

brushed brass (CM-047)

walnut (CM-055)

dark stained walnut (CM-056)

white washed oak (CM-095)

Veris 12
pendant

Dimensions: 12.75" Ø, 8.75"
Product weight: 2 lb
Suitable for a sloped ceiling

Integrated LED Specifications

Light output: 1690 Lumens (source)
Light color: 2700 K, 3000 K, 3500 K or 4000 K
Color accuracy: 90+ CRI
Power usage: 19.5 W

Dimmable (see driver below)
Driver must be housed in J-box
Driver dimensions: 3.3" x 1.6" x 1", included

E26 Medium Base Specifications

Lamping: E26 base, type A lamp, 60 W max
Input voltage: 250 V AC max
Bulb not included

low-profile round canopy with black SVT-3 cable

Textured Black powder coat (CM-049)
low profile round canopy with SVT-3 Cable,
Black (CM-039)
Canopy dimensions: 5" Ø, 0.3"
See website for more canopy information
Field adjustable drop length: 0'6" min - 8'0" max
Specifications subject to change

MATERIAL & FINISH OPTIONS

Veris 12 part #: 06-260-12 -

Shade Material

- matte black (CM-085) with matte white interior
- brushed aluminum (CM-012)
- brushed rose gold (CM-046)
- brushed brass (CM-047)
- distressed brass (CM-096)
- gloss white (CM-054)

Lamping

- 2700 K LED
- 3000 K LED
- 3500 K LED
- 4000 K LED
- medium base E26 socket

Driver (LED version only)

- AC Input Voltage Range: 120-277 V
- 120 V input: TRIAC, ELV & 0-10 V dimmable
- 240 & 277 V input: only 0-10 V dimmable

gloss white, closeup

Veris was a concept we started exploring ten years ago. Two offset layers of petals simultaneously shield the light source while allowing reflected light to wash the inside petals, creating a dramatic ambient luminaire. The form materializes through a series of processes that utilize cutting edge CNC laser technology but still rely on skilled hand-rolling and bending of the aluminum petals.

walnut (CM-001)

dark stained walnut (CM-002)

The Mica is simply a cube, which has been carefully deconstructed to a sculptural state. By way of the fixture's orientation and petal material composition, it exudes a certain organic symmetry. The Mica pendant acts as a beautiful node, creating a sense of space marked with an ambient glow.

walnut

dark stained walnut

The ClauDo showcases the beautiful natural walnut wood grain and sets it against the rigorous slits cut in each face as they wrap around the simple, clean shade form. A beautiful glow emanates from each slit, showing the striking rectilinear composition, in which all four sides are unique.

Nick Sheridan,
Designer

walnut, brushed aluminum

walnut, brushed aluminum

The Salix pendant's materials and proportions are in perfect harmony. The brushed aluminum set against the oiled walnut in this fixture still feels strikingly fresh and beautiful after years of production.

distressed brass, walnut

Casia is a fresh and innovative approach to a flush mount light fixture. Each carefully selected material plays an integral role in the aesthetic design and performance. The wood arms, metal shade, and glass diffuser combine to create a minimalist form well suited for a modern environment or a more traditional space. The 14" version works well in bathrooms, closets, narrow corridors, and smaller kitchens. The 18" and 22" sizes are incredibly dynamic and work well in different environments such as commercial, residential, and hospitality applications.

Plura flush mount, walnut, matte black with matte white interior

dark stained walnut, frosted polymer

walnut, distressed brass

walnut, brushed aluminum

The Plura is a simple, straight forward fixture that is excellently executed. With the Plura it was about resolving the seams and edges and their relationships to one another. The result is a scalable fixture that has a sharp, sophisticated feel.

Cerno's product development team prioritized the utility of the Allavo vanity, while not ignoring the importance of the aesthetic. Drawing from our experience with product photography, we knew that a large diffuse light source was the key to achieving our goal. The novel design uses indirect lighting that bounces off a curved metal surface.

Cerno's signature use of wood is integrated seamlessly into a design we believe harmonizes usefulness and beauty.

Merus is a quintessential Cerno design. Clean, modern lines paired with a novel indirect light source compose a form that balances beauty and usefulness. Our team used Cerno's signature material palette of wood and metal.

textured black, dark stained walnut, black amaretto

The adaptive and interactive features of the Talea introduced exciting challenges to the design process. I believe we found a balance that allows this fixture to thrive in a range of spaces and different applications. I am really pleased with how the design language turned out, specifically how the expressive hinge suggests its ability to swing, and how the wood to metal arm detailing suggests the arm can telescope. It's a beautiful mixture of utility and elegance.

Nick Sheridan,
Designer

Talea

articulate wall sconce

Dimensions: 18.38" x 5" x 34.75", 15" Ø shade
 Materials: solid wood, metal
 Product weight: 5 lb
 Light source: medium base E26 socket
 Lamping: E26 base, type A lamp, 60 W max
 Bulb not included
 Input voltage: 250 V AC max
 Clear SVT-3 cord included
 Top and bottom diffusers included (CM-051)
 Wood grain will vary
 Specifications subject to change

MATERIAL & FINISH OPTIONS

Talea part # 03-210

Metal Finish

brushed aluminum (CM-006) A
 textured black powder coat (CM-049) B

Wood Body

walnut (CM-001) W
 dark stained walnut (CM-002) D

The Spero Sconce illustrates a minimalist mindset without sacrificing design details that define the fixture. Pronounced metal accents join the leather strap to the shade, adding a balanced contrast between the different elements. The bottom aperture allows the delivery of ample light while shielding the rest of the space from glare.

Penna 64, mounting studs

On our Cerno journey, we continue to evolve as designers and craftsman. The Penna is a celebration of us drawing and reflecting on our last ten years. This design is an embodiment of all the lessons that we have learned from designing and building thousands of lights. This fixture balances utility and sophisticated beauty well. The walnut, brass, and leather work in concert to compose a modern form with materials that have been used for thousands of years.

Nick Sheridan,
Designer

Vesper
sconce

dark stained walnut

walnut

ADA compliant hotel room signage with tactile numbering and corresponding braille.

The Vesper is a very simple geometric sculpture composed of brushed aluminum, American black walnut, and white polymer. The light not only washes up and down the wall but also filters out through the composition, exhibiting the fixture's depth in three dimensions.

Emergency backup option available upon request, requires oversized J-box

The Sedo is composed of just three floating planes all kept parallel to the wall. This simple composition cloaks the light engine from view and filters the light as it is delivered far up and down the wall. It's this wall grazing and diffuser glow that gives the Sedo a strong architectural presence.

Nick Sheridan,
Designer

brushed brass

brushed aluminum

distressed brass

oiled bronze

The Ansa is a simple form that has been detailed and executed without compromise. The robust metal collar broadly trains the light while the light diffusing blades closely attenuate the wash pattern on the wall, yielding a simple and sophisticated feel.

The Fortis sconce is a quintessential example of collaborative design working well. New York-based Desiron and Cerno use a reductionist approach to modern luxury design. The quality of wood, metal, and glass combined with a minimalist composition create a sophisticated and functional sconce built with integrity. Caleb Siemon of Siemon & Salazar developed the glacial-looking piece of glass using recycled remnants from our glass-blowing studio. The glass's depth and texture elevate the fixture and make this work of art a dynamic design.

The Clauco sconce showcases the beautiful natural walnut wood grain and sets it against the rigorous slits cut in each face as they wrap around the simple, clean shade form. A beautiful glow emanates from each slit, showing the striking rectilinear composition, in which all three sides are unique.

J-box centered behind fixture

*Hardwired installation requires room in the J-box for the included external power adapter (2" x 1" x 1.25"). Typically mounting kit is used. See mounting options below.

Mounting kits are sold separately. No Mounting Kit is required if Libri is to be installed by direct mount, which mounted directly to a headboard.

Libri Mounting Kit

sconce backplate

J-box Backplate: Mounting Kit (3)
 J-box backplate is typically used when mounting to a J-box. Hardwired installation requires room in the J-box for the included external power adapter (2"x1" x 1.25").

Wall Mount Plug-in Backplate: Mounting Kit (1, 2)

Wall mount plug-in backplate is used when mounting directly to the wall and plugging into a wall outlet. The wall mount is an elongated rectangle that allows the cord to exit discreetly below the fixture.

 solid walnut body (CM-001)
 brushed aluminum (CM-006)
 frosted polymer (CM-024)

Levo Shelf Option

The introduction of the optional shelf for the Levo increases the utility of this fixture without compromising any aspect of the design. The shelf provides a perfect place to rest your phone or tablet while charging it. It is important to note that shelf is purchased separately from the Levo and can be retrofitted on existing Levos.

left model with shelf option

LEVO SHELF OPTIONS

Includes:
 solid walnut shelf (CM-001)
 brushed aluminum (CM-006)

brushed aluminum (CM-006)

walnut (CM-001)

The goal for the Levo was to create a bedside wall fixture with great task lighting articulation that was intuitive enough to be used without prior knowledge of the fixture: all the while making it slender, sexy, and very robust.

Efficiency and simplicity guided the design process for the Nauta table lamp. We designed the Forma several years ago with Frank Carfaro of Desiron, which profoundly influenced the Nauta's form. Our goal was to distill the Forma design without compromising it. The Nauta is clean, modern, and priced competitively.

brushed aluminum, dark stained walnut, white linen

Being our most traditional fixture, Frank Carfaro and I worked to design a piece that embraced both Cerno and Desiron's aesthetic, without deviating too much from either brand's design language. I am really pleased with the fluidity, posture and scale we achieved with the Forma table, and its likeness to the Forma floor lamp.

Revelite AL

art light

The Revelite AL brings art to life.

A challenge resolved by a slim luminaire that discreetly and evenly illuminates an artwork surface with beautiful color rendering accuracy.

CUSTOMIZED

Each AL is custom built and factory calibrated for an artwork's specific dimensions, distributing even illumination across the full width and height of the surface.

HIGH COLOR ACCURACY

To accurately reflect the artist's vision, the LED light source was designed to provide full color spectrum lighting with a color rendering index over 90 and an R9 value of 83.

ART SAFE

Revelite AL's LED technology provides a much safer alternative to legacy sources that emit excessive and damaging UV and heat.

LOW PROFILE

The minimal form virtually disappears against the frame or wall and pairs well with various styles of art, including contemporary, photographs behind glass and more traditional works.

US Patent # 7,070,293 and 9,134,004.

Other US and International Patents Pending.

"These lights revealed subtleties in paintings you just don't see with ordinary lights. I think we are seeing, truly for the first time, what the artist really wanted us to see".

Pat Trenton, Ph.D.

Art expert, curator and writer
