Your Home. Your Life.

If you're like most people, your home is an expression of who you are and what's most important. It's your center. Where you think and work, eat and entertain, rest, relax and recharge.

It's your life. And when you love your home, life is good.

At Vaxcel, we have been joining style and technology to create residential lighting people love for more than 30 years. Here, ideas don't originate in a lab. They begin with people and how they live. Here, we create something special, something meaningful.

We create lighting for life.

A woman with dark hair in a ponytail, wearing a tan cardigan over a floral top, is seated at a dark wooden desk. She is looking at a laptop screen with a slight smile. The desk is positioned in front of a large window that looks out onto a lush green forest. Above the desk, a modern chandelier with several circular, glowing light fixtures is visible. The overall atmosphere is bright and professional.

Start Here

Just like life, choosing the right lighting for your home is a journey.

Maybe you're building from the ground up. Or maybe remodeling a room or two. Or maybe you're discovering the surprising, room refreshing impact of simply updating a few light fixtures.

Whatever your project, whatever your preferences, we're here to help. Browse our products and start the journey to a brighter, more beautiful home.

Let your journey begin.

NEW PRODUCTS

Light Up Your Life.

Take a look at our new products designed for indoor spaces.

Your home's interior is where love comes to life. Vaxcel offers a diversity of lighting that both complements any décor and helps in creating your home's signature style. From farmhouse and rustic to mid-century modern and contemporary the possibilities are endless. These various options were created with you in mind, to enjoy your home so much you'll love staying in and sharing it.

Lighting with Purpose

At Vaxcel, crafting new products always begins and ends with you. Each project starts with defining a purpose — the “why” behind the solution.

Our thoughtful, innovative designs are created with real homes in mind. These designs include purpose, artistry and styling, as well as integration of our many patented technologies.

No matter the space it might go in or style it might reflect, you can be confident the solution you choose was developed with guidance from real homeowners like you and will brighten your home in more ways than one.
